

FOR IMMEDIATE RELEASE

HoverTech International Makes Safe Patient Handling History

Revolutionary HoverSling® Transfer & Lift Device streamlines patient handling tasks

Committed to continuous innovation in the field of safe patient handling, HoverTech International (www.HoverMatt.com) has developed a next generation solution: the HoverSling® Transfer & Lift Device. The HoverSling streamlines patient handling tasks by reducing the amount of time and money spent using multiple products. With the HoverSling, caregivers can use one, *disposable* product for nearly all patient handling tasks, including: lateral transfers, repositioning, turning, and vertical lifting. The patient also benefits from trusted HoverMatt® air technology to reduce skin shear during lateral transfers and a unique sling design that provides unprecedented comfort and support during vertical lifts.

For more information go to: <http://www.hovermatt.com/hoversling>.

About HoverTech International:

Based in Bethlehem, PA, HoverTech is a leader in air-assisted safe patient handling solutions that create a safer environment for both the caregiver and the patient. In addition to the HoverSling® Transfer & Lift Device, HoverTech offers a complete line of patient transfer and lift equipment, including the HoverMatt® Air Transfer System for lateral patient transfers and the unique HoverJack® Air Patient Lift for vertical patient lifting.
